

BASIC VEHICLE RESCUE

Location: Greater Valley EMS, Sayre

Date: September 26 & 27

Time: 8:00- 17:00

Description: This module is intended for those responders that have already completed the awareness level course. This course teaches the student the use of hand tools as they relate to vehicle extrication, and how to quickly and safely access and package patients for removal from damaged vehicles.

Pre-requisites: Basic Vehicle Rescue Awareness.

Gear: Turn-Out-Gear is **REQUIRED**, with appropriate eye protection. Gear will be inspected at the start of class.

There is no fee for this course.
